- Please introduce yourself, organization, and Collaborative in the chat box.

- What do you hope to get out of today's Collaborative Community Meeting?

May 9, 2018

Agenda

- Welcome
- Presentations by our Champions Board Members
  - Alberto Avalos and Daisy Madrigal (on behalf of Antonio Tijerino), Hispanic Heritage Foundation
  - Tiffany Brown, Urban Arts Collective and AIA
  - Jenn Behrens, KUMA and Verato
- Questions & Discussion
- Community Updates
- Closing

Welcome and Sharing

Hispanic Heritage Foundation: Coding as a Second Language

Alberto Avalos,
Innovation and Technology
Program Manager

Daisy Madrigal,
Coding as a Second Language
Coordinator

National Girls
Collaborative Project

Code as a Second Language

A Hispanic Heritage Foundation Latinos On Fast Track (LOFT) Initiative
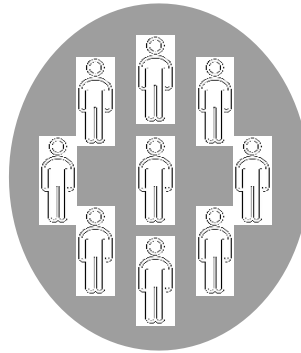

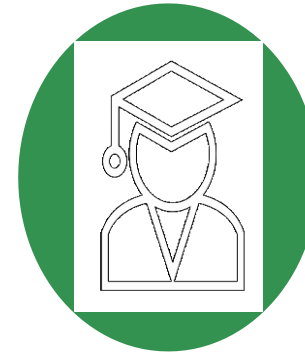

CSL Goals

More graduates with computer science degrees

Increased pipeline of Latinos in STEM

Leverage technology for social impact

More students attending college

Increase Grade Point Average (GPA)

Other CSLPrograms

LOFT Coder Summit– Cultivates and mobilizes ecosystem of Latino software engineers. Educates and arms participants with the appropriate skills for a job in the tech industry via workshops and mock interviews.

Hacking Careers in Tech – Through HACT, youth, who have been exposed to computer science and other fields, are able to connect with tech professionals and "hack" in an interactive way at what an actual career in the industry consists of and the path to get there (half-day sessions driven by the students' questions, curiosities, perspectives and thought-process therefore creating a "hacking"energy)

LOFT Labs – Cultivates the ecosystem of Latino entrepreneurs and place on path become pipeline to more mature incubators

Video Game Challenge – Minority youths across US are challenged to develop video games and apps to address social issues impacting their communities, brought to Washington, DC, to present to top influencers at White House, Congress and thought- leaders and supported through grants and LOFT Labs

Mobile App Challenge – Minority youths across the country are challenged to develop apps and mentored through LOFT Network and supported through LOFT Labs to encourage Latinos to innovate, create content, and be tech entrepreneurs

Creating an Ecosystem

CSL
Code as a Second Language

CSL Jams, Boot Camps, Academies, App Challenges, Hacking a Career, etc.
(introduction to tech fields across country for students)

Coder Summits, LOFT LAB, LOFT Network and other events
(connecting actual programmers to each other, resources, and *padrinos y madrinas*)

LOFT SOURCE
(identify, prepare, connect and place members of the network into workforce)

Code as a Second Language
