May 19, 2020 at 2:00 p.m. EDT

Join us for a virtual panel discussion on what the U.S. Department of Energy, NASA, and the U.S. State Department are doing to engage girls in STEM education and activities.

This **panel** was planned for the **SXSW EDU** in Austin, Texas in March and was cancelled due to COVID-19 public health concerns. But we didn't want that to keep us from having this important conversation!
