### **Goals of the National Girls Collaborative Project**

- 1. Maximize access to shared resources within projects with public and private sector organizations and institutions interested in expanding girls' participation in science, technology, engineering, and mathematics (STEM).**
- 2. Strengthen capacity of existing and evolving projects by sharing best practice research and program models, outcomes and products.**
- 3. Use the leverage of a network of collaboration of individual girl-serving STEM programs to create the tipping point for gender equity in STEM.**
