Community Call Feedback

Leap into science
Engineered by THE FRANKLIN INSTITUTE

Leap into Science Community Call Survey

Leap into science
Engineered by THE FRANKLIN INSTITUTE

- 16 responses (as of August 1st)
- Four questions:

1. What (if anything) has been **most useful** about the monthly community calls?
2. What (if anything) would make the monthly community calls **more useful** for you?
3. What **topics would you like to see discussed** on future community calls?
4. What **questions** (if any) do you have at this point in the Leap project?

Leap into Science Community Call Survey: Results

1. What (if anything) has been **most useful** about the monthly community calls?
 - Reflections from trainers.
 - Reminders and general updates.
 - Challenges, successes, and experiences of other state leaders.
2. What (if anything) would make the monthly community calls **more useful** for you?
 - Ahead of time resources and information.
 - Networking opportunities.
 - Follow-up guidance.

Leap into Science Community Call Survey: Results

3. What **topics** would you like to see discussed on future community calls?
 - Various topics: background checks, kits, curriculum, LSTA reporting, participation in Leap into Science Week, and implementation.
 - Educator training reflections.
4. What **questions** (if any) do you have at this point in the Leap project?
 - Requests: flexibility and clarification on background checks.

Updates to Community Calls

1. Build in more time for each State Leadership Team to talk about their experiences and networking
2. Send homework with Community Call Reminder (one week in advance).
3. Topic Requests:
 - a. Kits – September 1:1
 - b. Leap into Science Week – October Community Call
4. Other

General Updates

1. Leap into Science Forum
