- 1 out of 11 rated the experience as good

Data Collection Approach

Program leads and educators from each participating program were asked to complete an online survey at the culmination of Brite. Areas of evaluative interest included:

- program logistics
- time commitment and amount of information
- use of educator guides
- manageability of weekly projects and meet-ups
- benefits to participating program girls
- recommendations for future Brite programming

- Be-Ruth Foundation
- Girl Scouts of Eastern Missouri
- Girl Scouts of Historic Georgia, Inc.
- Girl Up
- Milwaukee School of Engineering
- Morrison Mentors
- SUNY Schenectady County Community College
- University of South Florida College of Marine Science

How did you use the World Science U Brite platform with your group?

Category	Value
Directed Attention to the Activities and Discussions for Work on on their Own	7
"Launch Pad" / Resource	4

# of program lead / educator responses

Was any particular week less manageable than the others?

Category	Value
Art + Science	1
Mind Matters	3
None, all weeks were manageable	7

# of proram lead / educator responses

Program leads recommendations to the Brite administrative team for future Brite programming.

TOP RECOMMENDATION:
Receive the educator guide earlier

For Program Leads
- Kick-off meeting for program leads/educators
- More clarity for the amount of learning time
- Provide evaluation forms to track girls' progress and knowledge acquisition
For Brite Girls

- Kick-off for girls on first day with screen shares to teach them how to navigate each platform
- Daily Wrap-Up meetings to recap for the next day
- Post example videos for FlipGrid for the girls
- Have a schedule for the girls for each day
